*Look Inside for hundreds of exciting  
software titles for your computer*

Dear Loyal Customer,

We started our software business in 1982, when home computers were a novelty. Today, they're part of your everyday lifestyle. Technology is still moving at warp speed, but one thing won't change—our commitment to bring you tools that make your office more productive, your leisure time more fun and your home life more enjoyable.

This will be a wonderful year for you, and for Expert, because of widespread technologies such as CD-ROMs and the Internet. CD-ROMs let us bring you even more of what you like best—powerful software that's easy to use. The Internet lets us give you more services and support and gives you a direct connection to the people at our company.

We invite you to stop by our home on the World Wide Web, <http://www.expertsoftware.com>. There you'll find out what's new and exciting at Expert, start dialogues with the people who work here—even get technical support around the clock. This will help Expert bring you more of what you like best, *faster*. Now *that's* good news.

You'll find AT&T's WorldNet Service software included on some of our top-selling CD-ROM titles. AT&T WorldNet Service provides easy and affordable Internet access. We hope you'll use the opportunity to stop by [expertsoftware.com](http://expertsoftware.com).

All of our new, exciting titles are offered on CD-ROM—and we've converted nearly all of our existing titles to that format. Some of our old favorites are still available on disk, so call the toll-free number to check availability.

Even with all this "newness," there's one last thing that will stay the same—Expert still makes high-quality software for your home and small office that fits right into the family budget.

Thank you for your business. Browse this catalog, check out [expertsoftware.com](http://expertsoftware.com) and let us hear from you!

Sincerely,

Ken & Sue Currier

# Favorite Games™

**Five of the Most Popular Time Tested Games!**

Entertain yourself with some of the most popular games of all time: Checkers, Backgammon, Hearts, Rummy, and Yacht (a game similar to Poker Dice).

### Packed with the Gaming Features You Want

- On-screen instructions for every game.
- 256 Color, detailed boards and pieces.
- Challenge a friend or the computer.
- Hear MIDI music throughout the games.
- Helpful Status bar shows playing order, dice rolls, and more.

### Backgammon

Knock your opponent off the board and onto the bar as you scramble to get ahead.

### Hearts

Beware of the deadly Queen of Spades in this 18th Century game where losing hands win games!

### Yacht

This game of skill and chance is played with dice, the most ancient gaming implements known.

### Rummy

This card game was introduced to the U.S. in 1900, and by 1935 more people played RUMMY than any other card game!

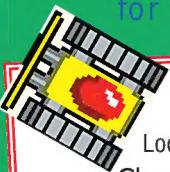

### Checkers

Probably the most popular game in history. Get kinged and take control of the board!

**System Requirements:** 386DX or higher DOS-compatible PC with DOS 3.3 or higher, Microsoft® Windows® 3.1 or later including Windows® 95. A CD-ROM drive or a 1.44MB floppy drive. 4MB of RAM, a hard drive with at least 5MB available, a VGA or SVGA, a Windows-supported mouse and printer. An optional 8-bit or higher sound card.

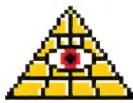

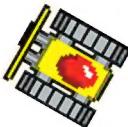

# 24 GAMES™

Challenge Yourself with 24 Exciting Games for Windows® 95 and Windows® 3.1.

### Powerful Database & Address Book

- ✓ Add **unlimited addresses**.
- ✓ **Sort alphabetically or numerically** with a mouse click.
- ✓ **Automatically number** labels sequentially (perfect for tickets).
- ✓ **Import other database files** in 5 popular formats.
- ✓ **QuickSave** button ensures that no data is lost.

**Choose from over 120 standard labels or create your own in any size!**

**System Requirements:** You need a 386SX or higher DOS-compatible PC with DOS 3.3 or higher. Microsoft® Windows® 3.1 or later including Windows® 95. VGA or SVGA. 4MB of RAM (8MB recommended). A CD-ROM drive. A hard drive with at least 7MB available. A Windows-supported mouse and printer.

# Forms™

**Designing and using forms is a snap with "Wizards" to guide you step-by-step!**

## Wizard Help...your big advantage

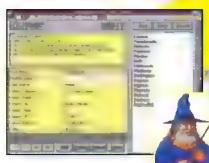

**Create Your Own Professional-Looking Forms Effortlessly...**

- ✓ 16 categories of forms for easy searching.
- ✓ Create, modify, and fill forms automatically using Wizards.

Wizards are smart tools with hints, advice and step-by-step guidance to create winning forms.

Over 400 professionally-designed forms including 25 NEBS forms. All of them are ready to use or edit them to suit your needs.

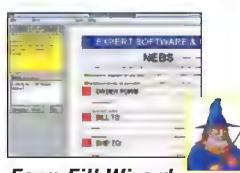

## Database Wizard

- ✓ Link forms to these popular databases: Expert.EDB, dBase, Paradox and Foxpro.
- ✓ Select from a list of fields, or name your own fields.
- ✓ Modify databases easily.
- ✓ Add and delete records.

## Form Design Wizard

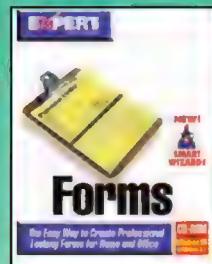

- ✓ Build custom data tables.
- ✓ Automate math calculations.
- ✓ Create multi-page forms.
- ✓ Import clip art or scanned images.
- ✓ Change colors, vary font styles and rotate text and images.

## Form Fill Wizard

- ✓ Mistake-proof data entry with built-in Spell Check.
- ✓ Pre-formatted forms correctly record all text, currency, dates, phone numbers and Social Security numbers.
- ✓ Prepared forms are ready to use - including the math calculations.

**System Requirements:** You need a 386SX or higher DOS-compatible PC with DOS 3.3 or higher. Microsoft® Windows® 3.1 or later including Windows® 95. VGA or SVGA. 4MB of RAM (8MB recommended). A CD-ROM drive. A hard drive with at least 8MB available. A Windows-supported mouse and printer.

**The easiest way to create professional-looking forms. Create, modify, and fill forms automatically using wizards. Over 400 pre-designed forms. Quickly edit, manage and print forms with point and click ease. Powerful editing tools make it easy.**

order # 8594

**\$14.95**

3D Font Creator™ lets  
you create stunning 3D  
pictures of words.

Instantly create the  
world's coolest  
looking 3D fonts!

**WOW**

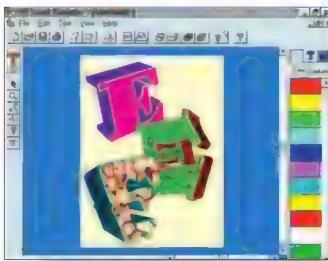

Before

**WOW!**

After

Start with any font on your  
system to create your 3D text.

Rotate and manipulate words  
individually or grouped. View all  
angles of 3D text in real time  
movement. Align and work with  
your font on a 2D or 3D grid.  
Customize the width and height  
of the font's bevel and the depth  
of the font's extrusion.

Export your 3D fonts in .WMF format to your favorite programs: Microsoft Word, Powerpoint, PageMaker, QuarkXPress and many others. Apply a  
light source to create shine and reflect light on your fonts. Apply custom  
colors and patterns to the front and side surfaces of the fonts.

Select from 60 different photo-realistic textures and patterns including:  
**marble, stone, grass, metal, wood and more.**

Perfect for Advertisements, Flyers, Logos,  
Announcements, Internet Pages,  
Presentations, Newsletters and more.

**Happy HALLOWEEN**

**FIRE!**

*All Men's Clothes 50% Off!*
